OUR UNUSED GOLD

Current estimates are that the U. S. Treasury has \$1.50 in actual gold and \$0.20 in silver in its vaults to back every dollar outstanding in the various forms of currency.

In the face of such a conservative situation, many wonder why there is such a following behind tobacco such as Elmer Coughlin, who demands less borrowing and more currency.

Actually, by failure to issue 1 or 2 billions in new currency, which could be done and still leave 100 per cent backing, the treasury is only feeding "inflation" to the ordinary wage earner.

A big aid cry of "inflation" is heard every time someone suggests that the public works program and the bonus be paid for in new currency. Of course, the big bankers want the percent of borrowing continued. We frankly make the statement that if the bonus is paid, the bankers will get more than the soldiers will if you ever felt to grumbling your personal debts you know what carrying charges do to

our estate. The Times Virginian is not so alarmed at the spending program of the government as at the method of financing the program. We are able to see the common sense in borrowing when there is over 4 billion in gold on hand with no currency out against it.

THE TERRACING PROGRAM

We want to praise the terracing committee of the Appomattox agricultural advisory board, for the program it is starting.

A people in a section like ours may be said to be as rich or as poor as their soil. Therefore it is of the utmost that the rich top soil be preserved and the dangers of costly erosion curtailed, and if possible, controlled.

By all means, our farmers should support the terracing program and the work of Mr. Harwood's committee.

Marginal Land

Average Price of \$5.49 Per Acre Is Paid For Sub-Marginal Land

It is understood here that some 30,000 acres of land in Buckingham county may be included in a sub-marginal area under government option.

It is reported that already some 2,000 acres are under option. The price on same ranges from \$5.00 to \$5.49 per acre, the average being \$5.49.

The sub-marginal projects in the Mayville and Princeton districts of Buckingham county were the first undertaken in Virginia.
